

COOPERATIVE PURCHASING

RoofConnect and the Connect Service Solutions family of companies have contracted with various cooperative agencies to provide roofing services to all public entities. Through these contracts, the public entity is able to access best-in-class roofing contractors without facing many of the hurdle involved in traditional procurement methods.

The Benefits of Cooperative Purchasing

By purchasing cooperatively with our family of companies, the entity can achieve...

- Increased value and control in the procurement process.
- Single-source solutions of a national contract through local contractors.
- Solutions available from all major roofing manufacturers.
- Shorter project execution times with fewer hassles, less change orders, and lower costs.
- Use of "best contractors in class" providers.
